César Gómez del Rey

César Gómez DEL REY

A former top-level footballer with an extensive career as a player, including teams such as Real Madrid Castilla, Real Valladolid, CD Tenerife, and AS Roma. He is currently focused on promoting youth football, playing a key role as General Director of KING PROJECT S.L., where he brings his invaluable experience in the world of football to create high-level projects and tournaments that benefit clubs both in their athletic performance and their future growth.

As the director of a company dedicated to managing sporting events, providing communication consultancy, and developing brand strategy and projects, he has outlined a roadmap with the primary goal of enhancing the level of youth football to elevate the quality of Spanish football for the future.

In September 2017, he acquired full rights to the IscarCup International U9 Football Tournament, with the vision of propelling this event to new heights. This ambitious project, built on a solid foundation, has already begun to yield results with the participation of the most important youth academies in the world.

A strong company committed to excellence in a first-class sporting event. An expert in the football world and fully aware of the importance of working from the grassroots level, César Gómez has successfully created the most prestigious U9 tournament in the world, combining competitiveness and values under a single project.

A NEW ACADEMY IS BORN

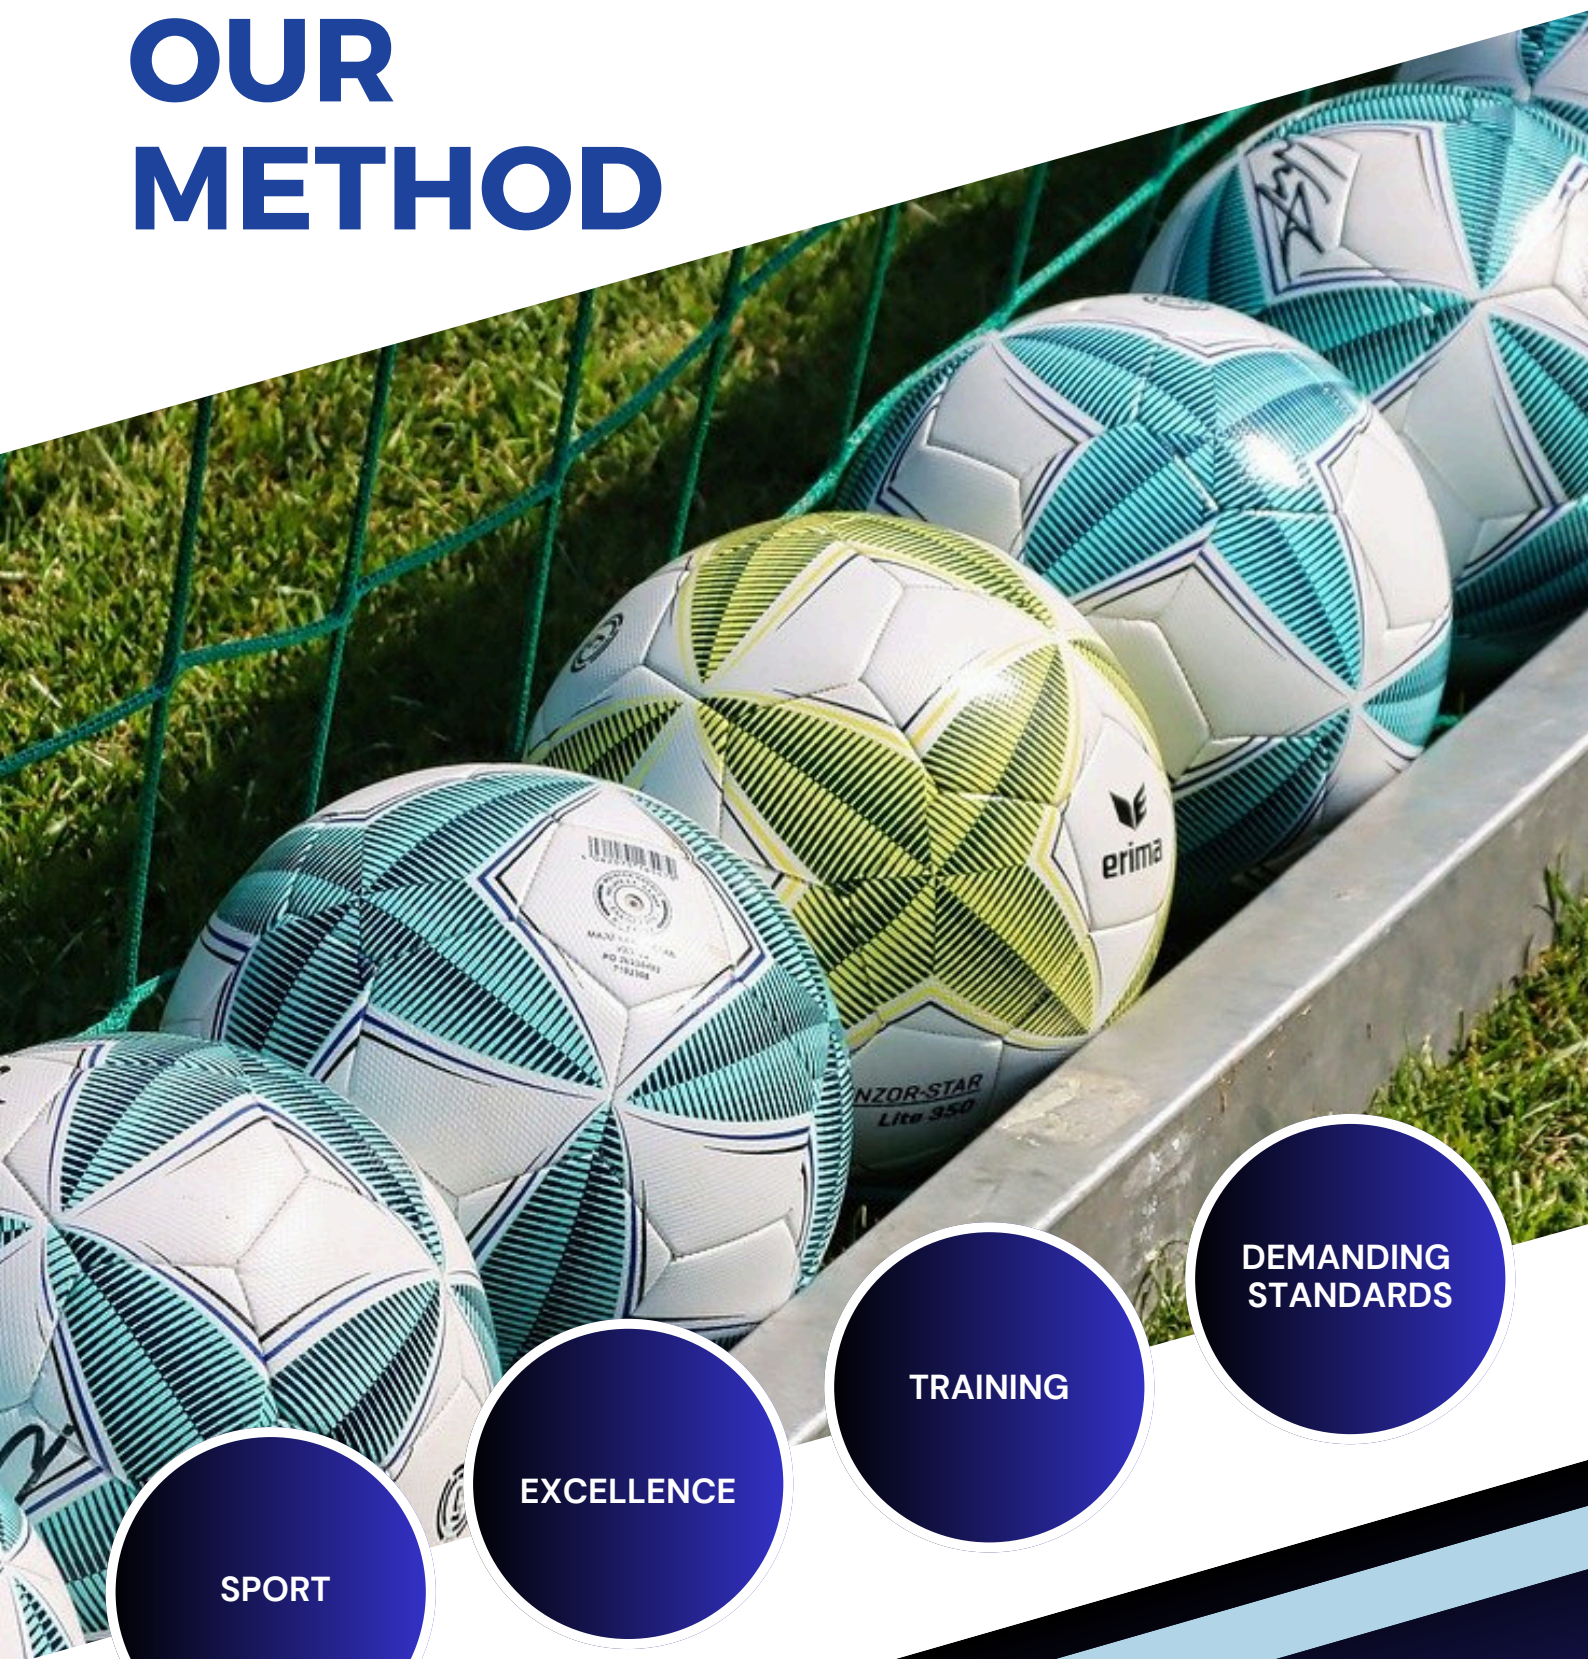

With the goal of developing young talents from various corners of the world, this academy offers a comprehensive program that combines high-performance training, academic education, and core sports values. It focuses on young players aged 16 and older, during those critical formative stages before taking the big step into the professional world.

OUR METHOD

Specialized Staff

Our specialized staff, covering all areas of modern football, guarantees successful training and athletic progress. Students are guided and advised by top-level former players throughout their journey.

Comprehensive Program

A complete program includes physical, technical, and tactical sports training, along with academic preparation and representation guidance, supported by established Spanish market agencies.

Competitive Opportunities

Students will compete in the appropriate league for their category, either through academy teams or other local clubs.

Career Projection

Friendly matches, tournaments, and joint training sessions with other youth academies of various Spanish football categories will be organized. These events provide players with opportunities to showcase their talent in a professional context.

FEDERATED TEAM

The academy proudly announces the creation of a representative team that will participate in a federated league. This step reflects our commitment to holistic development, offering athletes a competitive platform to strengthen their growth and strategically position them within top football club networks.

EDUCATIONAL TALKS

Victoria International Football Academy organizes a series of educational talks led by internationally renowned coaches. These sessions cover essential aspects of football, including tactical strategies, technical refinement, team management, and mental preparation. The goal is to equip players and sports professionals with practical tools and advanced perspectives to thrive in football.
